Downey and Aaron,  
Here are maps for Cedar Mesa/Bears Ears and for the Newspaper Rock portion of Indian Creek.? The Cedar Mesa portion of the first map covers about 290,000 acres.? The Bears Ears portion covers about 65,000 acres.? The Newspaper Rock area mapped covers 55,000 acres.  
Brian is working with the state to have them modify the boundaries of that area so we can get a good legal land description and manageable area.  
Also, he is working on the northern Indian Creek area (b)(5) DPP. We will get that to you with the acres associated. ?  
If you want to chat after that, let me know.? Ed
